You can't take away our Satellite Radio. If you do why pay the price's we do for it in the first place. You are taking our right to music, news, and freedom of speech. No we do not want any channels taken away. My father is a Over The Road Truck Driver and half the time he doesn't get channels, that is why he went with the XM Radio, please don't take that from him, it is lonely on the road with out some kind of Music, or News to listen to. Thank you.
